# Double Roller Blinds

Get the best of both worlds, by combining a blackout blind on the outside with a Sunscreen or translucent blind on the inside. You can pull the blackout blind down whenever you need to achieve maximum privacy and UV protection, or leave it up and let the Sunscreen or the translucent blind to give you that soft, diffused light during the day, and privacy at night, without impeding the cool summer breeze.

Shuttershop Blinds are Made in Australia to the high grade Quality & are all made to measure. They are dust & mould resistant & do not fade. Shuttershop will come out to your premises with a great range of Fabrics and Colours Choices to give that wow factor that you desire.

# Motorized Blinds

## Motorised Blinds

Window blinds have cords hanging down, which are a dangerous hazard for kids. But you don't have to have cords. You can get Motorised Blinds that are cord-free and perfectly safe for your little ones

They look amazing and slim line and you can easily open and close all your blinds or shades at the same time, with just the touch of a button you can move you're blind to whatever position you like. You can also add sensors and timers so your products work for you even when you're not at home

Reduce your energy usage by controlling the amount of heat and light entering your home. Keep your home cool in summer by reflecting the harsh heat of the sun, but allow it in during winter to enjoy natural warmth and light.

Somfy's world-leading motors are fully concealed inside the tube of the blind. With the simple press of the remote control, you'll enjoy the ambience and your guests will be impressed with the quiet sophistication of your automated system

Please Note Our Motorised External Venetian blinds can be installed internally please see our Motorised External Venetian blinds section for more information
